**Apply for this [Credential](#)**

<b>Description</b>
<p>The Federal Six Sigma Green Belt Credential equips Federal Acquisition Workforce professionals with advanced skills in process improvement, Lean methodologies, and Six Sigma techniques. Building upon foundational Yellow Belt knowledge, this credential emphasizes data-driven decision-making, project management, and operational efficiency. Participants gain expertise in advanced Six Sigma tools through Coursera courses, culminating in a peer-reviewed capstone project essential for full certification.</p> <p>This credential prepares participants to manage complex process improvement projects, perform advanced root cause analysis, and lead change initiatives, thereby enhancing quality, consistency, and efficiency within federal procurement processes. Although this credential does not provide external accreditation, it positions learners well for professional Six Sigma certification.</p>

<b>Target Audience</b>
<p>The Six Sigma Green Belt Credential is intended for Federal Acquisition Workforce members ready to deepen their expertise in process improvement and operational excellence. It is recommended for professionals who hold FAC-C, FAC-P/PM, or FAC-COR certifications and have completed the Six Sigma Yellow Belt Credential.</p> <p>This credential is designed for acquisition professionals in roles such as:</p> <ul style="list-style-type: none"> <li>• Contract Specialists (GS-1102)</li> <li>• Program and Project Managers (GS-0340)</li> <li>• Quality Assurance Specialists (GS-1910)</li> <li>• Operations Research Analysts (GS-1515)</li> <li>• Management Analysts (GS-0343)</li> <li>• Industrial Engineers (GS-0896)</li> <li>• IT Project Managers and Analysts (GS-2210)</li> <li>• Financial Analysts and Managers (GS-0501)</li> </ul> <p>Participants will gain the skills necessary to lead substantial process improvement projects and contribute to a culture of continuous improvement within their agencies.</p>
